

## Soap Stunters

We proudly present: a retro stunt team inspired by cartoons from earlier times. No guts, no glory, no legend, no story. That is the credo of the "Soap Stunters". They are the stars of the past, but also the heroes of today. Today! Our stuntmen have thoroughly prepared to show the people an ultimate stunt. A masterpiece that has never been shown to an audience before and has never been shown live at all. A trick that will surprise everyone, turn the stunters into heroes and make history. What does the public think? Will it be another jump over many burning tankers or will a human cannonball be thrown into space? We can already give you the following guarantee: Everyone must have seen this.

The stunt involves a hot wash of 1 of the stunters in the 'Hot Rod Washing machine'. Since it is a cooking wash of 95 degrees, there may be some shrinkage ;-)

### Technische details:

- 3 actors
- preparation 2 hours before start
- playing time +/- 3 x 30 (due to improvisation not always precisely)
- pauze between sets > 30 minutes
  
- *walk-act*: The team drives to and from the playground. Two engines and a cart with 'boiler/cannon'. Everything is powered by electricity (battery systems).
- *show*: In a spontaneous or a fixed spot, the stuntmen show their stunt. This is a fixed part and takes up to 20 minutes.
  
- playground > 8 x 8 meters
- free height 3,5 meters
- minimum width for passage 1.4 meters
- audience setup half moon
- flat underground
  
- power connection not required, runs entirely on batteries. When large numbers of audiences are expected and a larger sound system is necessary, we would like to hear from you. A power point at the playground is then necessary.
  
- parking spot for a big van (height 2,90 meters)
- drinks and meals for 3 persons
- dressing room with access to warm water
